DETAILED ACTION

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kenneth H. Samples on 4/27/05.

The application has been amended as follows:

- in claim 16 line 2, [15] will be deleted and replaced by "14"

Allowable Subject Matter

Claims 1 – 14 and 16 – 25 (re-numbered as 1 – 24) have been allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to teach a consumer response analysis system comprising a headend for transmitting normal television programs and substitute television program signals to a plurality of television receivers with each television receiver being connected to a plurality of television trunks pre-selected so that the receivers connected to at least one of the distribution trunks demographically represents the community for market research, a plurality of product sales collection units each for collecting information

representing purchases made by consumers at one of a plurality of stores, each sales collection unit collecting purchase information by consumers viewing receivers connected to the same distribution trunk and a market research computer system for responding to transaction response signals to provide an indication of consumer behavior in response to said normal and substitute programs.

Wallerstein (3,366,731) fails to disclose a headend which transmits normal and substitute television programs, receivers connected to at least one of a plurality of distribution trunks demographically represents a community for market research, the plurality of product sales collection units for responding to transaction response signals to provide an indication of consumer behavior in response to said normal and substitute television programs.

Eskin et al (4,331,973) fails to teach a headend which transmits normal and substitute television programs, receivers connected to at least one of a plurality of distribution trunks demographically represents a community for market research and a plurality of product sales collection units for responding to transaction response signals to provide an indication of consumer behavior in response to normal and substitute television programs.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
